

Ohara School

In the late 19th century with the influence of Western culture, First Headmaster, Unshin Ohara created the Moribana arrangement, as well as the shallow container for it. The Ohara School emphasizes seasonal qualities, natural growth processes, and the beauty of natural environments. It is important for its students to observe seasonal nature. The Ohara School is well known for its Landscape Moribana, Bunjin and Rimpa arrangements. Hiroki Ohara, our Fifth Headmaster, has created a new arrangement, Hana Kanade, which emphasizes the beauty of crossing lines.
